Subject: RE: Heads Up AR Compilation

Hi, Jackie.

Thanks for the heads up on the admin record. We discussed the admin record plan for the AR A40 RAP in a EPA/State conference call with project managers and attorneys this morning.

My site attorney agreed that EPA could get an electronic version of DTSCs admin record for the RAP and retain that as a part of our admin record. Then EPA would compile DTSC's info with EPAs admin record and have it ready in the Superfund Record Center prior to EPA's public comment period.

Pete MacNicholl, the A40 DTSC project manager, has kindly agreed to put a CD together for us with all of DTSC's admin record files, so we could just use that when we compile ours. Thanks, Pete!

We don't yet have a timeframe for when EPA's public review period would start, but it will definitely be sometime after July 2018, possibly 2019. I'll keep this requirement in mind though so we can get this lined up before the public comment period opens.

Thanks,
Lynn

Subject: Heads Up AR Compilation

Dear Lynn:

No one discussed the Administrative Record for the Aerojet Area 40 OU-10 RAP today. This document has to be completed and in the Site repositories prior to the comment period opening. For our purposes, you and our attorney need to start working on this list now to submit it to the Superfund Record Center so they have time to find and compile it to send it physically out by UPS. I kid you not – it usually takes from 3-4 weeks to make this happen.

FYI, Jackie
